

Summary of WebEX, April 16, 2010, on the new Georgia Water Management System

The April 16 WebEx on Georgia's Water Management System resulted in much discussion among about 20-25 people from at least 9 states, providing good regional communication on the Georgia approach. Presenter, Gail Cowie, Water Policy Advisor for the Georgia Environmental Protection Division, gave ideas and approaches that are adaptable to many situations. The recording system did not engage. Her presentation is attached. Direct contact is gail_cowie@dnr.state.ga.us.
